

Risk Management Policy and Risk Register Adopted 23/07/19

"The greatest risk facing a local authority is not being able to deliver the activity or services expected of the Council."

The management of risk is an important part of the Council's work; making sure that the people who use our facilities are safe, giving the staff the protection to get on with their work, and protecting the assets that the council hold. Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that enable the Parish Council to identify any and all potential inherent risks. The Parish Council, based on this assessment, will take all practical and necessary steps to reduce or eliminate the risks, insofar as is practically possible and making sure that all employees are made aware of the results of the risk assessment.

Topic	Possible Risks	Actual			Management/Mitigation	Review/Assess/Revise	Residual		
		Likelihood	Severity	Risk			Likelihood	Severity	Risk
Financial
